Sant Bartomeu Programme of Activities

Art in Motion – Reels competition

Competition for creative videos of up to 60 seconds, interacting with Okuda's work located on Carrer de Santa Agnès. Entrants must post their short videos on Instagram with the hashtag #ReelOkudaSantAntoni2025 before 7 September. Prizes will consist of vouchers to spend in local shops.

Dear Portmanyins,

The Sant Bartomeu festivities have once again hit our streets. Traditions, activities and fun for everyone. With the weather being so hot, it's a chance to cool off, forget about our daily routines and work, and reconnect with our festive and welcoming community spirit.

These festivities are full of moments for all ages and tastes: evening concerts by the sea, traditions that connect us to our past and our history, family activities to bring the community together, popular culture, sports competitions and loads of fun. All this has been prepared for us to experience the best of Sant Antoni as a community.

As our promotional slogan says, Sant Antoni is a place to celebrate. And its festivities are an open invitation to get together, enjoy ourselves, and discover and rediscover the richness and traditions of our town. Because with every festival,

every gathering and every dance, we celebrate how lucky we are to live in a place like this.

I would like to express my heartfelt thanks to the organisations, associations, "colles" and everyone involved in the organisation of these festivities, for their dedication and enthusiasm, as well as to the Town Council's Festivals department for their tireless work.

Make the most of them and share them with family, friends, neighbours and visitors. Because Sant Antoni belongs to all of us and these festivities are for locals and visitors alike.

Have a great time!

Marcos Serra Colomar
Mayor of Sant Antoni de Portmany
